Since many years we deal with distribution and processing of natural cork products. Currently we present a new line decorative as well as functional products DECORK. We combine different types of composition cork with colorful fabrics and felt.

Our basic proposition is hexagon wall panels, connecting the decorative and utility properties - pinboards and acoustic protection.

Dimension of a single tile is 150 x 172 mm. On customer request we can produce different shape and size of the tiles. On request available other colors and finishing. Can be installed on a wall or other vertical surfaces using two sides adhesive tape, which allow to remove tiles without damaging the surface or using cork adhesives.

For office, living room, children room, kitchen and bedroom.
